## ANTIQUE 2-COLOR ELECTROTYPED ORNAMENTAL INITIALS DA0123

Complete alphabet in each color, plus 17 duplicates.

Good clean condition without noticeable wear or corrosion.

Age and source of these initials are unknown, but likely dating to the 19th century. Size is 4-line or approximately 48 point. The eleven extra pieces consist of 7 paired characters and 3 singles. All pieces are copper electro on stereotype metal, mounted on a wood block. At least some and possibly all of the blocks have been drilled out and liquid type metal poured into the bore; this gives added strength. Base form electros are glued onto the block (no room for nails) and the color elements are nailed on. Looks like these were done by a professional electrotyping company. The face is an oldstyle semi-rugged roman, possibly hand-drawn, very close to Plymouth. No proof has been taken; there will likely be slight variations in height which may require individual makeready.

## MISCELLANEOUS OLD BORDERS #22 DAGC03

From American Type Founders. See note below.

Here we have two antique 12 point single-element borders. They are designated Inland Borders No. 1227 and 1228, and shown in the 1912 catalog of American Type Founders, page 1057. Either can be used independently or they can be chromatically combined. Quantity of the first is about 300 running picas, and of the other, somewhat more. The majority of each has 3 elements ganged on a 36pt body for easier composition, and a generous supply of single elements on 12pt em as well.

## ANTIQUÉ WOOD TYPE, 20L INCOMPLETE DA-RRB

Used wood type, incomplete, manufacturer unknown.

This poor old remnant of a font is likely pretty old. Face and manufacturer are unknown; note the stylized A, H, P and S. For better or worse here it is—what you see is what you get.

(While metal type is designated by point size, wood is traditionally described by the term "Line", with a line being equal to one pica. Thus, 20-line type like this is 20 picas in height, or about 3¼ inches. Good for BIG posters!)

Price: ~~\$89.00~~ \$75.59

### WOOD TYPE, 8-LINE GOTHIC CAPS DA0103
